OUR BEST IMPLANT BATTERY EVER

Rayovac, a world leading manufacturer of hearing aid batteries has been at the forefront of the industry for over 110 years. With a drive to constantly innovate and evolve means Rayovac batteries are synonymous with quality.

Designed specifically with cochlear implant users in mind, the Rayovac Implant Pro+ provides users with the quality, performance, reliability and consistency they need to live life to the full.

This has been made possible thanks to a cathode design, which boosts the cell's reliability, even in high-drain devices. Rayovac has also developed an electrolyte formulation which offers increased conductivity for improved, high-power performance.

In choosing Rayovac, you are opting for more than just a battery:

- First class service is the hallmark of Rayovac and comes as standard with every purchase.
- You will also gain our technical expertise and exceptional support package.

- Rayovac works tirelessly to ensure our highest quality hearing aid batteries are available to our customers.
- Using world class manufacturing techniques and performing 262 quality checks ensures our highest product performance.
- Our manufacturing facilities both in the UK and the USA produce hearing aid batteries under ISO 9001 and ISO 14001 approved procedures.
- With lead times of 2-3 days across Europe and 5 days to Asia, Rayovac branded hearing aid batteries are the freshest on the market!
- All Rayovac products come with a 4 year shelf life guarantee.
